

Exterior Design GUIDE

\$100/ hour

Exterior Design OVERVIEW

Exterior design services are perfect for clients who need help getting the curb appeal they have always dreamed of.

Step 1: Contact us to set up a meeting.

Step 2: We meet you to further discuss your thoughts/needs for the exterior. During this meeting we will also take any required measurements, notes, and photos of the current house.

Step 3: We will develop a 3D drawing that clearly demonstrates each finish for your exterior that can help you visualize your new exterior. Often, we are able to offer a couple of options and work together to refine the design.

Step 4: We will then finalize the design complete with material selection that you can present to your contractor.

Disclaimer: We will not recommend quantities of the finishes or provide measurements. The contractors are required to make their own calculations.

Expectations

PAYMENTS

Services are invoiced when your design is finalized.
Payment is due upon invoice via e-transfer or cheque.

COMMUNICATION

Clear Communication is extremely important for projects to run smoothly and ensure all team members remain on the same page.

We use EMAIL as our primary mode of communication. This allows us to document all communication and allow us to think effectively and then communicate concisely about design decisions.

We prefer phone calls to be scheduled so we can ensure that we can solely focus on the situation at hand. A simple email asking us to give you a call with a brief topic explanation is perfect! We prefer to use text for immediate issues and onsite "emergencies" only.

If you need to reach us outside of office hours, please email us and we will get back to you as soon as our time permits.
